Pepperdine University, Malibu Campus
Drescher Graduate Campus Auditorium

Dr. Dickerson will address the often daunting task of working with couples who are mired in conflict. In this respectful approach, she will use live demonstration and video to apply Narrative concepts with particular attention to those cultural forces that can pit partners against each other. It is hoped that attendees will return to clinical practice with a renewed sense of interest in couples work.

A practicing clinical psychologist for more than 25 years, Dr. Dickerson presents workshops and lectures extensively throughout the country on Narrative ideas and practice. She is the widely published co-author of the seminal work *If Problems Talked: Narrative Therapy in Action* and most recently *Who Cares What You're Supposed to Do? Breaking the Rules to Get What You Want in Love, Life, and Work*
